Subject: Request for Info - File # 0068-EX-PL-2016

---

Message:

Mr. Serafini,

We've amended our application to add the transmit power and the ERP for the requested frequencies.

At this time, AT&T requests that the experimental license allow for 8 fixed base stations. All fixed base stations will be located at the AT&T Labs in Austin, 9505 Arboretum Blvd, Austin, TX, Coordinates: NL 30-23-28; WL 97-45-05.

AT&T requests that the experimental license allow for the use of 12 mobile units in each of the requested spectrum bands.

Thank You.
