Message:

Hi Nimesh,

Thank you for sending this for coordination. The event/testing will start on 02/01/2020 that's why I've put 01/31/2020 as the start date. I was notified last Friday that we needed to respond to your email but I was not able to. I did notify our Engineers that going forward, we will need to file at least two weeks ahead of time.

Best Regards,
Angie
