NTIA concurs with the FCC STA request on behalf of Aerial Video Systems for Los Angeles, CA during the period 12 February 2018 thru 18 February 2018, with the following comment(s):

1. Aerial Video Systems should be aware that the band 2200-2290 MHz is allocated for federal satellite and fixed line-sight operations. Non-federal use is on a case-by-case basis. Aerial Video Systems should have no expectations of automatic approval in this band in future submissions.
