Subject: FAA Concurrence of Record TRK 200414

Dear Proponent,

Your Frequency Coordination Request has been engineered by FAA Spectrum Engineering. TRK 200414 is assigned an FAA Coordination number NG T200388 which indicates FAA's concurrence. Please note that this does not constitute authority to transmit.

A formal application must be filed with the FCC, that includes reference to the above FAA Coordination number which is valid until 1/20/2021. If an extension is desired, please submit an inquiry via WebFCR for an extension. Your authority to transmit accordingly must be obtained from the FCC. FAA Spectrum has provided the following comment:

FAU Line: (ADD TO FCC GRANT AND NG SUP DETAILS) THIS IS FOR A SHORT-TERM, PROOF OF CONCEPT OPERATIONS ONLY FOR FLIGHT TEST TELEMETRY. OPERATION SHALL BE LIMITED TO 5140-5150 MHZ AND LABORATORY PURPOSES. IT SHALL NOT BE USED FOR OPERATIONAL PURPOSES OR COMMERCIAL APPLICATIONS. THE FAA CONSIDERS THIS PROPOSAL TO BE A TEMPORARY WORKAROUND SINCE THE POWER LEVELS DO NOT MEET RESOLUTION 418, AND ANY LONG-TERM RENEWALS ARE EXPECTED TO MEET THE REQUIREMENTS. FAILURE TO MEET RESOLUTION 418 WILL RESULT IN NON-CONCURRENCE OF FUTURE RENEWALS. AMT OPERATIONS ARE NON-INTERFERENCE BASIS TO AERONAUTICAL FIXED AND SATELLITE OPERATIONS.

The attached file contains a Summary Table of the key record parameters documented throughout the process. The following Revision Table outlines the attributes which were revised:

Attribute	Revised Value
Frequency	M5140.0000

Thank You

FAA Spectrum Engineering
