Subject: 1620-EX-ST-2019 pre-coordination data request

---

Message:

In response to the Commission's note stating that coordination with the Aeronautics and Flight Test Radio Coordinating Council (AFTRCC) is required, an error was made in the initial application regarding the frequency channels proposed. An amendment on September 3, 2019, deletes the initial frequency channels within the 1480-1485 MHz band and substitutes frequency channels within 1840-1845 MHz. No other changes are made to the application for Special Temporary Authority. I apologize for this error. Please call upon us with any questions.
