Message:

The word "both" is a typo in two places in this ODAR:

1. "Probability = 0.00000, per DAS 3.1.0 for both orbit regimes." should read, "Probability = 0.00000, per DAS 3.1.0."

2. "A table of the breakdown of components for both spacecraft is shown below." should read, "A table of the breakdown of components for the spacecraft is shown below."
