Subject: Additional Information Request

---

Message:

This an update to this correspondence.

All items are addressed except:

Item 2, space and ground antenna patterns. I have provided 4 but I am missing 3. I have asked and as they come in, I will upload them. The gains and beam widths have been provided.

Item 9, FAA pre-coordination letter. We have submitted the request to the FAA via their website and are waiting for a response. I will upload it upon receipt.
