

FCC EXPERIMENTAL LICENSE UPDATE REQUEST JUSTIFICATION EXHIBIT

Raven Aerostar submits this exhibit as justification of the recent amendment to the existing FCC license, call sign number WJ2XPJ.

The purpose of the amendment is to extend the range of the existing license as follows:

This extension is needed to test the experimental radar in a mobile operating environment with differing geographic's. This amendment does not affect the physical or performance characteristics of the radar antenna or resulting emissions. We are hopeful this amendment is deemed non-critical to allow for expedited approval. Please feel free to contact me directly with any questions.

Thank you,

RUSS VAN DER WERFF
