

Exhibit FCC application 0907-EX-CN-2020
Question 6: Statement of Research Project

This authorization is required to provide essential communications required to meet customer requirements dictated under the above referenced contract. The contract requires communications with sufficient bandwidth and range to enable the testing of a variety of equipment being tested. The communication equipment approved by the customer requires this license for operation. The specific details of the work being performed is designated by the US government as Controlled Unclassified Information (CUI). Further disclosure will require coordination with the controlling agency.
