I can provide you our Full WGS Certification Report for our Airbus RCT X-Band Terminal that provides ALL the RF MIL-STD testing. This should answer all your questions as these terminals have been WGS Certified by the U.S.A. Space Missile Defense Command for operation on WGS Military Satellites.

However, I would need a way to provide it as a "private" document, only for F.C.C. Official use. Can you let me know how this can be accomplished?
