Subject: Additional Information Request

Message:

Please review the 1246 MHz column in your "Revised Re-Radiator Link Budget". The power level you're reporting in the exhibit is -131.9 dBm. That doesn't meet the requirement 8.3.27 (f) that states that the emissions are no greater than 140 dBm/24 MHz. You most likely made a mistake in the Transmission line loss to re-radiator.
Provide corrected exhibit.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 04, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
