Hello Alonzo,

The emissions designator for your L1/L2GHNRRKIT is **20M4W7D** and the necessary bandwidth is **20.46MHz**.

Thank you for choosing one of our products. Please let me know if you have any other questions or concerns, or if you need additional assistance setting up your equipment or your FCC license.

Best regards,
Nick Wiley

Hello, I recently purchased the L1/L2GHNRRKIT from one of your distributors and am in the process of completing the FCC form 442 for operation and I had a question regarding feedback I got from the FCC. I was asked to provide the emission designator with necessary bandwidth. Can you provide the emission designator and bandwidth for the L1/L2GHNRRKIT in order to complete the form? Thank you for your time.
