

SUBJECT: Modification in Experimental License (Call Sign: WG2XHO)

Dear Sir/Madam,

This application has been filed to update the followings:

1. Company Contact Details have been updated
2. Geo location of the Fixed/Mobile Site location for the granted license (Call Sign: WG2XHO).  
The address mentioned in the granted license was correct but the geo location was wrongly entered in the initial application. So we wanted to update the same.
3. We have updated the Bandwidth from 10MHz to 20MHz for 2.3GHz Band.
4. We have added the Antenna Model, we are planning to use for this testing. The datasheet has already been uploaded in the exhibit.

The Fee of \$60 has been paid.

Request you to process this application.

Thanking you in advance.
