Subject: Request for Info - File # 0346-EX-CN-2021

Message:

This emission designator was previously provided by the manufacturer, Echodyne. They recently updated the emission designator to 45M0F3N for a license they were just granted. This application should be updated to use the same. Given that the application is in NTIA review, will you modify the application? Or should I make the modification?

Regards,
Marty
