

Additional Ground Stations – Windham and Boulder:

Two ground stations operated by RBC Signals LLC (“RBC”) have been added to support Radix’s mission by allowing for additional Telemetry, Tracking, and Control (TT&C) links using the same frequencies as outlined in this application and approved in the license.

One station, based in Windham, New York. File number for the granted license application to support Radix is SES-STA-20180430-00416

And another station, based in Boulder, Colorado. File number for the granted license application to support Radix is SES-STA-20180307-00202

Both stations will operate at the same frequency as the previously listed station in Fairbanks, Alaska of 401.24-401.36 MHz.
