RE: Analytical Space, Incorporated – File No. 0044-EX-ST-2017, Call Sign WL9XLY

Analytical Space, Inc. (“ASI”) hereby submits this letter to formally notify the Commission that the Radix experimental cubesat that was launched on May 21, 2018 as a secondary payload aboard an International Space Station (“ISS”) resupply mission was deployed successfully on July 13th, 2018 from the ISS and has been operating as expected under the above-referenced authority since that deployment date.

ASI will also update the record of this proceeding when its satellite operations are discontinued.

Please do not hesitate to contact me if you have any questions on this matter.

Respectfully submitted,

/s/ David Payne
