Re: Anduril testing under Contract No. HQ0034219P001

To whom it may concern,

This letter confirms that Anduril Industries, Inc. (“Anduril”) has a need to test various emitting devices at its private test facilities in support of its Production Other Transaction (P-OT) Agreement with the Defense Innovation Unit (Contract No. HQ0034219P001) for Counter Unmanned Aerial Systems (C-UAS). Such emitting devices include those for which Anduril has requested special temporary authority from the Federal Communication Commission file numbers 0528-EX-CN-2021 and 0628-EX-CN-2021. Granting special temporary authority to Anduril for the requested emitting devices will allow Anduril to continue to test and evaluate its products that may be purchased under the P-OT.

Sincerely,

Matthew D. Way
