

Proposed Tower Location: Rooftop of Anduril Industries' HQ

Dates: 18 Sep – 05 Oct 2020

Concept of Operation:

- Testing radar performance in an urban environment to prepare for an upcoming deployment in support of major US Special Operations entities
- Radar will not be emitting 100% of time, there will be short time windows where it will be emitting and gathering data for engineers
- Radar will be configured to detect small UAS and birds
