

Time Domain Corporation
Experimental STA Request
November 27, 2002
File No. 0418-EX-ST-2002

Exhibit 3

Operational and Geographic Information

This request seeks a special temporary authorization to demonstrate prototype ultra wideband (“UWB”) units as follows:

Date:	Time:	Location:
December 18, 2002 thru June 18, 2003	7:00 am – 5:00 pm	Applied Research Associates, Inc. 962 W. John Sims Parkway Niceville, FL 32578-1823

Purpose: *To use PAD UWB transceivers in an indoor laboratory experiment.*

Number of units: 2 PADs

Antenna gain: nominally 0 dB

Radiated power: less than – 73dBW/MHz

Note: The radiated emissions level will not exceed the limits that would apply to an “unintentional” radiator under the general Part 15 limits set forth in Section 15.109 of the Commission’s Rules.

This device was designed and fabricated before the release of the FCC’s 1st Report and Order on UWB, FCC 02-48.

[NOTE: If operations are to be conducted entirely indoors, you should state this here as part of the request. Indoor only applications generally raise fewer coordination concerns than do those proposing outdoor operations.]

Note: According to the FCC TOWAIR database, the nearest landing area to 962 W. John Sims Parkway, Niceville, FL is at Eglin AFB and is 4230.0 meters (13877.7 feet) away. The Commission has heretofore found it to be in the public interest to explore the development of ultra-wideband technology. *See FCC First Report and Order, FCC 02-48.*

The purpose of the operations to be conducted under this requested authority will be to evaluate and demonstrate UWB as a potential technology in support of products that our company is considering developing for commercial, Federal Government, and international customers. Devices for the U.S. commercial market would be designed and certified in accordance with FCC regulations.

Contact person during hours of operation at location:

Mark Denney
Senior Scientist
