Subject: Request for Info - File # 0979-EX-ST-2020

Message:

Hello,

This is in response to a request to "Submit a plan on how the application will prevent interference to incumbent Fixed Microwave Service operators in this band";.

I have found that three discrete frequencies exist in the Fixed Microwave Service band that overlap with our desired frequency range, 100kHz - 1GHz. These are 930 MHz, 940 MHz, 950 MHz. We will notch out the frequency band 925MHz - 955MHz so that we will not be transmitting at these frequencies.

Thank you,
Kyle
