Subject: Request for Info - File # 0139-EX-CN-2018

---

Message:

1. Submit a SIGNED Orbital Debris Assessment Report (ODAR) in accordance with 47 C.F.R. §5.64(b).
2. The FCC's International Bureau requires the submission of SpaceCap data to complete evaluation of your application. In accordance with the provisions of Article 9.1 and Appendix 4 of the Radio Regulations, mandatory submission of a SpaceCap file for each individual space station is required. The software and instructions may be downloaded from the ITU link <http://www.itu.int/en/ITU-R/software/Pages/spacecap.aspx>. Submit the results to my FCC email address, Douglas.Young@fcc.gov. Change the extension of the mdb file so that it makes it past our firewall.
3. You have submitted an IARU coordination letter with your application. This means that you should be filing for a Part 97 amateur license. If you don't qualify for an amateur license, then you will need to submit an electromagnetic compatibility (EMC) analysis demonstrating that you will not interfere with licensed services. An example of an acceptable EMC analysis is the exhibit entitled "Exhibit C Interference Study" in Experimental Licensing System file number 0026-EX-ST-2018.
4. Submit a copy of the NOAA License to Operate a Remote Sensing Space System, if required.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 22, 2018 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
