Subject: Request for Info - File # 0412-EX-CN-2017

---

Message:

Address these additional concerns that our International Bureau has:

1. What is the data content that will be stored?
2. Please describe whether and how the experiment has a reasonable promise of contributing to the development, extension, or expansion of the radio arts, or whether data storage on orbit has already been investigated. See 5.63.
3. Is use of a "free-flying" satellite necessary to conduct the experiment? Can the tech demo be conducted from below ISS?
4. There are 2 Fatal errors in the SpaceCap file that need to be corrected.
5. There appears to be frequency overlap with Iridium. The applicant needs to confirm with Globalstar that there is no frequency overlap with Iridium and appropriate coordination is agreed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 31, 2017 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
