Subject: Request for Info - File # 0007-EX-CN-2018

Message:

Part of the spectrum you have requested, 4940-4950 MHz, is allocated to public safety. According to 47C.F.R.§5.85(d), "Applicants in the Experimental Radio Service shall avoid use of public safety frequencies identified in part 90 of this chapter except when a compelling showing is made that use of such frequencies is in the public interest. If an experimental license to use public safety radio frequencies is granted, the authorization will include a condition requiring the experimental licensee to coordinate the operation with the appropriate frequency coordinator or all of the public safety licensees using the frequencies in question in the experimenter's proposed area of operation." Either submit a compelling showing that the use of that spectrum is in the public interest or amend your application to end your requested frequency band at 4940 MHz.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 20, 2018 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
