

Autotel Race Radio
Application for Special Temporary Authority
File No. 0702-EX-ST-2021
Sahlens Six Hours of the Glen Automobile Race
Watkins Glen International Circuit, Watkins Glen, NY

This application for Special Temporary Authority is submitted by Autotel Race Radio, a telecommunications company located in the United Kingdom. The application seeks four VHF pairs of channels and five simplex UHF channels, for operational communications of one race team which will have its pit crew and race cars participating in the Sahlens Six Hours of the Glen Automobile Race at the Watkins Glen Race Track, Watkins Glen, New York, from June 23, 2021 through June 28, 2021.

These channels have been reviewed against the Commission's ULS database and have been found to be unlikely to cause interference to any co-channel or adjacent channel licensee. Nevertheless, should any interference be reported to a licensee or authorized user during the race event, operation on the affected channel or channels will cease and will not resume on the offending channel unless and until all interference has been resolved to the satisfaction of the complainant.

The equipment to be used in each case includes JVCKenwood portable and mobile transceivers and one ICOM base transmitter. The portables and mobiles will operate at 5 watts TPO and ERP. The one base station will utilize 10 watts ERP. All emissions will be 4K00F1E.

The stop buzzer contact in the United States will be undersigned counsel, who can be reached at any time during the operation at 301-351-3795, or Mr. Ken Clayton at (0) 787 245 6635. All other communications can be directed to undersigned counsel as follows:
