Ms. Nguyen:

This is to advise you that BAE Systems and FAA are still in discussions regarding the potential for operations in the 1560-1620 MHz - specifically, BAE Systems has requested whether FAA would agree to a single discrete frequency of operation at the end of this range.

BAE Systems hopes to hear back from FAA shortly as to these final discussion points.

Accordingly, BAE Systems respectfully requests an additional 10 days - until July 15, 2021 - to reply to this inquiry.

Please let us know if there are any questions.

Best regards,

Jeff Rummel
Attorney for BAE Systems
