- The FAA's Lorena Carvajal has provided her coordination for FAA frequencies between 118-137 MHz. The coordination number provided by Ms. Carvajal for all such frequencies was as follows:

Contact Information:

Lorena Carvajal

- In addition to the above, BAE Systems recently forwarded the pending applications to the FAA's Anuj Sinha for coordination of any FAA frequencies outside of the 118-137 MHz band. That coordination has not yet been completed. BAE Systems will advise you as soon as such additional FAA coordination has been completed.

Please let me know if you have any questions.
