

Exhibit 1

This Modification is being submitted in order to:

- Reduce the Output Power and ERP for various frequencies and bands from 5W to .1W.
- Delete certain frequencies/ranges (135.075 MHz, 156.535-156.79 MHz)
- Modify certain ranges:
 - o From 597-608 MHz to “597-607 MHz (to be consistent with Special Condition 14)
 - o From 614-823 MHz to “615-745 MHz” and “806-823 MHz”
(to be consistent with Special Condition 14)
- Delete “4K00F3E” emission designator for the ranges of 400-406 MHz and 420-454 MHz
