Subject: RE: BAE Systems - Pending Experimental STA Request - File No. 0147-EX-ST-2017

Mr. Rummel,

My apologies. Somehow I missed your reply to my questions on 1 March.

Based on the frequencies given in that reply, 2413.525 and 2510.075 MHz, Globalstar does not expect any interference from those emissions at the Dugway Proving Grounds. We give our consent to your operations.

Please let me know when the testing starts.

Best regards,

David Weinreich
