Subject: Request for Info - File # 0147-EX-ST-2017

Message:

Ms. Nguyen:

BAE Systems has discussed with the FAA's Rodney Murphy (rodney.murphy@faa.gov) the questions of "depth" and "SPS Certification".

As a result of such discussion the FAA's Rodney Murphy has confirmed as follows:

- The question of depth (in dB) is not applicable to BAE Systems' test signals. Mr. Murphy confirmed that BAE Systems may disregard this question.
- BAE Systems has confirmed to Mr. Murphy that there is no SPS Certification associated with the SIGINT system under test. Mr. Murphy confirmed that this would not prevent FAA coordination, as BAE Systems is not transmitting "operational signals". In fact, FAA coordination for this application is nearly completed and the FAA coordination report will be submitted once coordination is completed.

Best regards,

Jeff Rummel
Attorney for BAE Systems
