Subject: Request for Info - File # 0148-EX-ST-2017

Message:

Ms. Nguyen:

Good afternoon.

BAE Systems has received a "Reminder" regarding FAA coordination for the above-referenced applications.

This is to confirm that FAA coordination is ongoing for the above applications, and that BAE Systems is continuing to work directly with FAA on the coordination.

It is critical that BAE Systems have additional time to complete FAA coordination – operation on the requested frequencies is critical to successful completion of these experiments.

Therefore, it is respectfully requested that the applications be kept in pending status while FAA coordination is completed.

Please extend until April 1 the time to complete FAA coordination – if additional time is required BAE Systems will contact you prior to April 1.

Best regards,

Jeff Rummel
Attorney for BAE Systems
