Ms. Nguyen

This is to advise you that AFTRCC coordination has been completed for the above-referenced applications.

The AFTRCC coordination report has been uploaded to the ELS for each of the applications.

As you can see below, the AFTRCC coordinator previously confirmed that "It appears as if all of the telemetry frequencies we coordinate have been deleted, and there is only one VHF frequency (123.575 MHz) at one location left for AFTRCC coordination."

Best regards,

Jeff

Jeff,

It appears as if all of the telemetry frequencies we coordinate have been deleted, and there is only one

VHF frequency (123.575 MHz) at one location left for AFTRCC coordination. If in fact, this is what the licensee intended the fees to coordinate are as follows:

Application fee	\$200
1 VHF Freq @ \$50/per	\$ 50
Location fee	\$100
Total fee	\$350
