Subject: Request for Info - File # 0283-EX-CM-2020

Message:

File No. 0283-EX-CM-2020
(Ref. 59375 and 59418)
Completion of FAA Coordination

Ms. Carvajal and Ms. Nguyen:

As described below, this email is to advise of BAE Systems' understanding that FAA coordination for the pending modification application under File No. 0283-EX-CM-2020 has been completed.

If Ms. Carvajal can please confirm on behalf of FAA that no additional FAA coordination is required for this pending modification application under File No. 0283-EX-CM-2020, that would be appreciated. BAE Systems requests that FCC proceed with finalization and grant of the modification application.

COMPLETION OF FAA COORDINATION FOR 228.8-328.6 MHZ RANGE - FOR 99 DISCRETE FREQUENCIES SPECIFIED IN EXHIBIT 1

- As you know, FAA coordination for the 228.8-328.6 MHz range has already been completed, for the 99 discrete frequencies specified in Exhibit 1 to pending File No. 0283-EX-CM-2020 (FAA Concurrence under TRK 210157 - NG T210154).

- That coordination contains a Comment stating: "PLEASE ADD A CONDITION IN THE FCC LICENSE INDICATING THAT NO FREQUENCIES ALLOCATED FOR AIR TRAFFIC CONTROL PER LIST PROVIDED BY THE FAA WILL BE USED IN THIS FREQUENCY RANGE."

AMENDMENT OF MODIFICATION APPLICATION TO AVOID FAA FREQUENCIES WITHIN 118-137 MHZ

- Based on discussions with FAA's Ms. Carvajal, BAE Systems has made amendments to the pending modification application to avoid FAA frequencies within 118-137 MHz; see amended form and exhibit submitted today.

Best regards,

Jeff Rummel
Attorney for BAE Systems
