Subject: Request for Info - File # 0329-EX-CN-2016

Message:

File No. 0329-EX-CN-2016 (Ref. Nos. 35643, 35338, 35421)

Ms. Nguyen:

In further reply to your request dated 1/12/2017, this is to advise you that FAA has not yet fully completed its coordination of this application.

As you can see below, coordination of the 5550-5925 MHz band has been completed under NG T170117.

However, the band 5180–5320 MHz is still under review by FAA HQ.

BAE Systems is in continuing contact with FAA on this coordination. Unfortunately coordination has not yet been completed.

Accordingly, it is respectfully requested that the deadline for obtaining FAA coordination be extended to April 5, 2017 to permit FAA additional time to complete coordination. Should additional time be required beyond April 5, 2017, BAE Systems will contact the Commission at that time.

Best regards,

Jeff Rummel
Attorney for BAE Systems

Subject: RE: Request for FAA Coordination - BAE Systems - Pending 2 Year License Application - File No. 0329-EX-CN-2016

Sir,

The NGT number for frequency band 5550MHz-5925MHz is NG T170117

The assignment number for the frequency band 5180MHz-5320MHz will require FAA HQ action. I have forwarded the assignment for their review and will update with the status as soon as I find out.

Respectfully,
Anuj
