

## **Exhibit 1**

In connection with this renewal application for Station WG2XZT, this is to confirm that the following US government contracts (and any associated active delivery orders thereunder) remain associated with the operations under this license:

- FA8620-11-G-4029
- FA8628-16-G-3028

In addition, the contract POC information remains as follows:

Mr. Brian McCarty  
GS-13 USAF AFMC 645 AESG/WIJPC  
937-225-2368  
[brian.mccarty.7@us.af.mil](mailto:brian.mccarty.7@us.af.mil)

As the license will continue to be used to also support internal research and development efforts, there should be no change to the XT Station Class.
