

**Exhibit 1**

In connection with the pending renewal application for Station WE2XIZ, the following is noted:

- The current “Stop Buzzer” information for the license is updated as follows:

(6) The designated point-of-contact to terminate transmissions if interference occurs is ~~Sean Hallinan 603-361-5959~~, George Moynihan (603) 689-8630 or BAE Systems Emergency Services Center - (603) 885-3842.

It is requested that Special Condition 6 be updated accordingly upon grant of the renewal application.

- Pursuant to Section 5.77(a) of the Commission’s rules, the following antenna is added to the list of antennas already specified in the license file for this experiment:

Ant #	Mfg.	Model Number	Frequency Range	Gain (Nom.)
3	Sunol Sciences	JB1	30 – 2000 MHz	0 to 7 dBi

Should BAE Systems wish to make this change a permanent part of the license file, an application to modify the license will be filed pursuant to Section 5.77(b).

- This is also to confirm that there remains no government contract associated with this license.
