

## **Exhibit 1**

The Commission recently granted the modification application for this license under File No. 0205-EX-CM-2021.

Pursuant to Commission staff direction, the licensee had postponed filing this renewal application during the pendency of the modification application to allow time for the modification to be granted and to avoid having both applications pending at the same time.

Now that the modification has been granted, the licensee is filing this renewal application. Licensee understands that the Commission will waive the renewal filing timeframe specified in Section 5.59(a)(2) under these circumstances.
