Attachments: FW: AFTRCC ICN 1613-16/6555 (BAE XT/Antenna Testing-DPG, UT) (UNCLASSIFIED)

Mr. Rummel. DoD Nellis AFC coordination is attached. You can remove it from the coordination to the FCC however, please ensure that your client (BAE) has a copy of the remarks and instruction for scheduling their activity due to other testing upcoming at this range to include weapons testing. It is critical that they follow the notification and scheduling remarks.

V/R
Wayne

This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Subject: AFTRCC ICN 1613-16/6555 (BAE XT/Antenna Testing-DPG, UT)

AFTRCC concurs with and requests DoD Nellis AFC concurrence/coordination on the following Experimental STA request.

Applicant:

BAE Systems
65 Spit Brook Rd., NHQ1-719
Nashua, NH 03061
POC: Jeff Rummel (Atty) (202-715-8479)

Frequencies: 2355.0-2395.0 MHz

Station Class: MOEB

Emission: NON

Power: 20 watts (ERP)

Location: Toole County, (Dugway Proving Grounds), UT (40-09-34N 112-57-59W)

MIRAD: 3.1 miles (5KM)

Dates: 2016-11-17 thru 2017-05-17

AFTRCC comments: non-interference basis to Flight Test telemetry.
This request in direct support of US Army and their contract with BAE Systems.
Customer: US Army contract POC Freddie Lee (443-861-2309).

Please reply via return email as to concurrence, non concurrence,
scheduling, and additional remarks.

Signed:
Wayne Morris

Mr. Morris,

NAFC CONCURS with a few notes from Dugway/Hill shown in the message below. They have tests they will conduct during this time frame and will schedule them in IFDS. I'm not sure if you have IFDS, but please coordinate with Mr. Straughan & Mr. Hopson for the exact dates that you may require. NAFC 588-16. Please let me know if you have any questions.

Thank you

DPG Concur.

Once freq approvals are finalized test dates, times, and individual freqs will be scheduled in IFDS. Ops will be 5-6 days a week with a possible 7 days a week if schedule slips.

Cease Buzzer will be DPG Range Control.

At this time testing will generally begin in the afternoon (1500 or later) after daily operations that may have a conflict have been completed. Operations will end around 0400 to 0600 the next morning. Testing operations will be NIB and stand down to any licensed operation.

POC for this operation is RIAC CTR Doug McDaniel and RIAC Director Jenny Gillum (Cc'd).

HILL/UTTR nonconcurrs with notes.

Test needs to be on specific dates and times. Test needs to be input into IFDS.

We(Eglin - Mr Parsons CCed on the email) currently have five proposals "IN-PROCESS" at NTIA in 2355-2395 MHz on the UTTR.
