Joe,

Here are your coordination numbers:

 Goodyear, AZ
 5150-5250 MHz
 coord#
 NG T120162

 Marana, AZ
 5150-5250 MHz
 coord#
 NG T120164

Let me know if I owe you anything else.

John

Mr. Hepsen,

I'm not sure you if you have had a chance to look at this one yet. Please let me know if you have any questions.

Thanks

Joe

Mr. Hepsen,

Just following up on this renewal request and the required FAA coordination for the Phoenix and Marana locations.

Let me know if you have questions.

Thanks

Subject: FW: FCC Call Sign WE2XQQ Renewal FAA Coordination Request

Mr. Hepsen,

The FCC gave me 30 days to respond to this FAA coordination requirement so I will submitting a response to the FCC today requesting an extension. I don't if it helps but below are the other NG T numbers I received for the other locations.

Roswell, NM	NG T120076
Everett, WA	NG T120069
Redmond, WA	NG T120071
Boeing Field, WA	NG T120072

Please let me know if you have any questions on this one.

Thanks

Joe

Mr. Hepson,

For the Phoenix and Marana locations, please let me know if you have any questions for this license renewal.

I have received the FAA coordination for Roswell from Kimberly Mai and the Northwest coordination from Dan O'Rear. Both have excluded the 5250-5825 MHz band.

Thanks

Joe

John/Mark,

Dan O 'Rear has given us the coordination for his areas excluding the 5250-5825 MHz band.

If you need anything else from me for this coordination request for Phoenix, Marana, and Roswell, please let me know.

I appreciate any help you can provide.

Joe

Joe,

Finally back in the office from back to back travel weeks. Your contact for AZ is John Hepsen, and I've cc'd the manager for the Central Service Area, Mark Gallant to help you with the POC for NM.

In your attached, File Number: 0108-EX-ML-2011 Call Sign: WE2XQQ it lists in the special conditions (4) that "The frequency bands 5250-5825 MHz is NOT allowed for renewal of the license due to potential interference to Navy and the other Federal Government operations." Given that, I'm assuming you want us to coordinate on the only band left, which is 5150-5250 MHz.

Please let us know how you'd like to proceed.

Dan,

We will be renewing FCC call sign WE2XQQ (attached) and we would like to request FAA coordination for this renewal. This license supports wireless LAN testing onboard the aircraft.

Who would be the appropriate FAA contacts for the New Mexico and Arizona locations?

Thanks for any help you can provide and please let me know if you need any more information

Joe
