## Description

**This item may be subject to additional <u>Tariff Surcharge</u> of $9.39 (15%) each.**

The HyperGain HG914YE High-Performance Yagi Antenna in an economical package combines accurate gain with a wide beam-width, ideally suited for directional applications in the 900MHz ISM and GSM bands. This series of Yagi antennas provides the user with anodized aluminum boom, solid elements, low loss series 400 COAX, and rugged mounting hardware. These features from L-Com are offered at cost-effective price points for the user who expects exceptional performance and value. Order on line today!

### Features

- 14 dBi gain & all weather Anodized Aluminum construction
- Can be installed for either vertical or horizontal polarization
- Heavy-duty 1/2" Aluminum boom
- 15 inch coax lead & 1/8" thick plated steel mounting plate
- Solid Aluminum 1/8" elements

### Application

- 900MHz ISM Band & Wireless LAN systems
- Point to multipoint & Non Line of Sight (NLOS) applications
- RFID & SCADA
- 900MHz Cellular and GSM
- LPWAN, LoRA, IoT, M2M applications
