Subject: Request for Info - File # 0864-EX-CN-2017

Message:

Leann,

We filed today a new application for experimental earth stations (File No. 0075-EX-CN-2018) that will complement the Global-1 experimental space station we recently filed under 0864-EX-CN-2017. In preparing the technical exhibits for the new earth station application, we discovered some errors in what we provided you in response to your request for more information regarding the earth stations that will communicate with the satellite.

We've uploaded a Revised Exhibit 5 which includes the new figures. The places where corrections have been made are highlighted. Please replace the former Exhibit 5, with the corrected "Exhibit 5 REVISED". We apologize for any inconvenience that may have resulted. If you have any questions, please contact me on 202-429-4900.
