---

Message:

In ref. Correspondence No. 22077, BlackSky, LLC (BlackSky) hereby replies to inform the OET staff of the following:

- (1) The application with NOAA remains under consideration. We will notify the OET staff upon the issuance of NOAA's letter of authority.
- (2) BlackSky has submitted a companion application seeking experimental STA to operate ground stations to communicate with the subject nanosatellites. That application can be retrieved in the OET system under File No. 1136-EX-ST-2013.
- (3) BlackSky will be submitting an amendment to the instant space station application to make a technical adjustment to it, based on a determination made during the preparation of its companion earth station application.
