Message:

In response to your inquiry. The FAA has provided coordination numbers for 136.85 MHz and 136.975 MHz, which are listed below:

136.85 MHz - NG T080458

136.975 MHz - NG T080459

As for the frequency 131.55 MHz, FAA indicated that they had no objection, but that we would need to further coordinate with ASRI. That coordination is in progress.

The FAA response has been attached as part of the application file.

Sincerely,
Ron Center
