---

Dear Proponent,

Your Frequency Coordination Request has been engineered by FAA Spectrum Engineering. TRK 200577 is assigned an FAA Coordination number NG T200552 which indicates FAA's concurrence. Please note that this does not constitute authority to transmit.

A formal application must be filed with the FCC, that includes reference to the above FAA Coordination number which is valid until 3/22/2021. If an extension is desired, please submit an inquiry via WebFCR for an extension. Your authority to transmit accordingly must be obtained from the FCC. FAA Spectrum has provided the following comment:

FAU Line: PLEASE UPDATE EMISSION TO 6K00A3E AND MAX POWER TO 25W.

The attached file contains a Summary Table of the key record parameters documented throughout the process. The following Revision Table outlines the attributes which were revised:

<b>Attribute</b>	<b>Revised Value</b>
Frequency	M118.0000

Thank You

FAA Spectrum Engineering
