Message:

Bollinger Shipyards (Mr. Bill Dicken) has spoken with the Public Safety of Homeland Security Bureau (Mr. Brian Marengo) concerning the use of public safety band frequencies, and it is Bollinger's understanding that the Bureau desires Bollinger not to test the specific frequencies listed in Bollinger's test plan as the frequencies are specific to local law enforcement, but testing within the Public safety frequency band will be allowed. Bollinger has agreed not to test the specific frequencies and is awaiting license approval detailing the specific public safety frequencies to be removed from Bollinger Shipyards test plan.
