

Up to 18.3m

The diagram shows a vertical mast structure. On the left, a vertical line with arrows at both ends indicates a height dimension. The text 'Up to 18.3m' is positioned next to this line. The mast itself is a thick vertical line. At the top, there is a horizontal line segment with two short vertical lines extending upwards from its ends, forming a U-shape. To the right of the mast, there is a block of text describing the antenna configuration.

Proposed Antennas To Be
Mounted At Top Of
Deployable Tactical Mast
In Diversity Configuration
