Message:

1. Please describe more details how the experiment performs

The base station will be powered on at approximately 9:00 AM EDT each day. Multiple subscriber stations will be used to transmit data (simultaneously) of varying types and size within the coverage radius specified in the application (3 km radius). The base station will be powered off at approximately 5:00 PM EDT each day and the base station will be transmit disabled at any time it is not in use (i. e., lunch breaks).

2. Please provide the US Air Force point-of-contact including name and telephone number

Garrett Ellis

Test Engineer

46th Test Squadron, A Flight

(850) 885-4156

3. Please provide the person who will terminate the system if having interference including name and telephone number.

Jack D. Welsh, III

Lead Wireless Engineer

DISA PEO-STS
