

Request For Waiver

Broad Comm hereby requests that the commission grant a waiver of the distance separation requirement of Section 74.802 of the FCC Rules to allow the broadcasters to operate low power auxiliary stations on a non-interference basis on co-channel TV broadcasting channels where television stations on those channels are located at least 45 kilometers from the intended area of operation. The low power to be used will not exceed that permitted under Part 74, and in the majority of cases, will be less. The list of stations that are within the "Request For Waiver" follows as attachment A.
