Subject: Per Our Telcon, Democratic Convention

Louis,

Per our conversation this morning and attempting to coordinate coverage of the presumptive nominee coverage AFTRCC will have no issues with the following and will coordinate via DoD AFC when requested.

- A likely location in Wilmington, DE will be selected and an appropriate mile radius from said point will be requested and coordinated.

- As this situation remains flexible and requires a "best guess" AFTRCC will have no issue if ultimate venue is within a reasonable distance outside of MIRAD requested.

- Since Flight Testing with rare exception does not take place after sunset due to public safety AFTRCC does not have concerns of any interference to same.

There are currently no flight test areas within close proximity of Wilmington.

- AFTRCC additionally will do the same once location of Republican acceptance venue is established.

Please address any other comments or concerns to the undersigned.

Wayne Morris

AFTRCC Telemetry Coordinator
