Dear Leann Nguyen,

In reply to your question about output powers and band widths; BMS designs and sells products not only to the U.S. market but to markets throughout the world. Local country rules may allow transmission limits different than those in the U.S. so our testing may require occasional transmissions outside the usually accepted limits.

BMS has been in the microwave business for over 26 years and we understand the important need to be a good RF neighbor. We coordinate with other local users prior to brief experimental transmissions.

Best regards,

Thomas P. Smith, Jr.

Product Manager

Message:

Dear Mr. Bunney and Mr. Smith,

Please provide an explanation why your company uses too high power and large bandwidths for just

testing microwave links. Because the explanation statement will be sent to coordinators, please submit it in the exhibit.

Thank you.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of September 24, 2008 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
