Hi Peter,
Please see the attachment for coordination.

Thanks,
Leann Nguyen

FCC FREQUENCY COORDINATION NOTICE

Experimental Licensing Branch Office of Engineering and Technology

The following application is attached for your review:

Applicant: Broadcast Sports, Inc.

File Number: 0240-EX-ST-2015

Start Date: 4/6/2015

End Date: 4/12/2015

Why STA Is Necessary :

Applicant is a video production company which provides video for broadcast, satellite broadcast and cablecast of sporting and other events. Applicant has certain LTTS, BAS and private wireless licenses for this purpose. However, the spectrum usage in many major cities and the limited available spectrum for these events makes it necessary to make coordinated, temporary use of additional channels in the vicinity of 3.6 GHz. This is necessary to have sufficient video relay from RF cameras at numerous locations at the events.

Purpose of Operation :

To provide wireless return video to all talent and camera personnel at various sporting events.
